

# 4<sup>th</sup> Grade Fun with Mrs. Flores and Mrs. Robarge

## Reading

- Students will be sequencing narrative and informative literature using a thinking map and/or graphic organizer
- Students will use context clues to begin answering text dependent questions

## Math

Students will be assessed on their understanding of place value (digitally)

Students will begin using multiple strategies for solving four digit addition and subtraction problems.

## Science

■ Students will begin exploring how the Earth's surface changes, landforms and the layers of the Earth.

## Writing

■ Students will continue to take notes on a place in California. Some students may begin their rough drafts.

## Social Studies

■ Students will continue to identify places on a map using their knowledge of longitude and latitude.
